In the last decades, Ingvar Johansson has made a formidable contribution to the development of philosophy in general and perhaps especially to the development of metaphysics. This volume consists of original papers written by 50 philosophers from all over the world in honour of Ingvar Johansson to celebrate his 70th birthday. The papers cover traditional issues in metaphysics and the philosophy of mind, applied ethics and applied metaphysics, the nature of human rights, the philosophy of economics and sports. Some of the papers study the philosophy of Ingvar Johansson. All of them studies subjects which he has shown an interest in. The variety of subjects covered, testifies to the extraordinary wide range of issues his thought has had a bearing on.

The most comprehensive guide to all techniques available to European companies, European Cross-Border Mergers and Reorganisations is the ideal reference tool for lawyers, auditors, notaries and scholars working in the field. Providing everything a practitioner needs to co-ordinate a successful cross-border merger, the book analyses the EU Directives and how they have been applied in each of the main EU/EEA member states. The diverging rules for each jurisdiction are highlighted and explained enabling quick comparisons to be made between countries for assessing feasibility of the chosen technique. As well as the requirements, formalities and potential pitfalls of cross-border mergers, each country analysis addresses the relevant aspects of corporate, employment and tax law such as informing shareholders and employees, verification of the legality of the merger, and language requirements. The book also considers other cross-border reorganisation techniques, such as demergers, partial demergers, the transfer of branches of activity, the creation of a Societas Europaea, or a Societas Cooperativa

Europea, and the cross-boarder transfer of a company's head office or registered office, providing a practical guide to the best possible solution for a practitioner's client. European Cross-Border Reorganisations: Law and Practice is an easy-to-use reference work for legal, tax and audit professionals involved in mergers.

This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume. After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such, the volume goes on to address such themes as the complex interplay between disability and quality of life, questions of social justice as it relates to disability, and the personal dimensions of the disability experience. By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized, the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease, illness and disability found in much of the philosophy of medicine literature, on the one hand, and the comparatively concrete but less philosophical discourse frequently encountered in much of the disability studies literature. It also critically examines various claims advanced by disability advocates, as well as those of their critics. In bringing together leading scholars in the fields of moral theory, bioethics, and disability studies, this volume makes a unique contribution to the scholarly literature, while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy.

In The Cult of LEGO, Wired's GeekDad blogger John Baichtal and BrickJournal founder Joe Meno take you on a magnificent, illustrated tour of the LEGO® community, its people, and their creations. The Cult of LEGO introduces us to fans and builders from all walks of life. People like professional LEGO artist Nathan Sawaya; enigmatic Dutch painter Ego Leonard (who maintains that he is, in fact, a LEGO minifig); Angus MacLane, a Pixar animator who builds CubeDudes, instantly recognizable likenesses of fictional characters; Brick Testament creator Brendan Powell Smith, who uses LEGO to illustrate biblical stories; and Henry Lim, whose work includes a series of models recreating M.C. Escher lithographs and a full-scale, functioning LEGO harpsichord. Marvel at spectacular LEGO creations like: – A life-sized Stegosaurus and an 80,000-brick T. Rex skeleton – Detailed microscale versions of landmarks like the Acropolis and Yankee Stadium – A 22-foot long, 350-pound re-creation of the World War II battleship Yamato – A robotic, giant chess set that can replay historical matches or take on an opponent – A three-level, remote-controlled Jawa Sandcrawler, complete with moving conveyor belt Whether you're a card-carrying LEGO fanatic or just

thinking fondly about that dusty box of LEGO in storage, *The Cult of LEGO* will inspire you to take out your bricks and build something amazing.
