in an interactive process to learn the philosophy and skills of child-centered play therapy: seeing the world through the child's eyes, empathizing, tracking, setting limits, recognizing childhood as culture, identifying themes and stages of therapy, and more. Throughout, the authors provide a personal backdrop for learning and living the child-centered play therapy philosophy, based on their many years conducting and supervising play therapy sessions. Both budding and seasoned play and child therapists stand to gain richly from their insights.

Highly practical, instructive, and authoritative, this book vividly describes how to conduct child-centered play therapy. The authors are master clinicians who explain core

therapeutic principles and techniques, using rich case material to illustrate treatment of a wide range of difficulties. The focus is on nondirective interventions that allow children to freely express their feelings and take the lead in solving their own problems. Flexible yet systematic guidelines are provided for setting up a playroom; structuring sessions; understanding and responding empathically to children's play themes, including how to handle challenging behaviors; and collaborating effectively with parents.

"The authors . . . make child-centered play therapy readily understandable to those who wish to take advantage of its long history of helping children overcome problems and grow emotionally to a level of maturity

information on one of the most rapidly developing and growing areas of therapy. Ecosystemic play therapy is a dynamic integrated therapeutic model for addressing the mental health needs of children and their families. The book is designed to help play therapists develop specific treatment goals and focused treatment plans as now required by many regulating agencies and third-party payers. Treatment planning is based on a comprehensive case conceptualization that is developmentally organized, strength-based, and grounded in an ecosystemic context of multiple interacting systems. The text presents guidelines for interviewing clients and families as well as pretreatment assessments and data gathering for ecosystemic case conceptualization.

The therapist's theoretical model, expertise, and context are considered. The book includes descriptions of actual play therapy activities organized by social-emotional developmental levels of the children. Any preparation the therapist may need to complete before the session is identified, as is the outcome the therapist may expect. Each activity description ends with a suggestion about how the therapist might follow up on the content and experience in future sessions. The activity descriptions are practical and geared to the child. Case examples and completed sections of the workbook are provided. It provides the therapist with an easy-to-use format for recording critical case information, specific treatment goals, and the overall treatment plan. Workbook

Landreth stresses the importance of understanding the child's world and perspective, allowing play therapists to fully connect with them. Although there is this emphasis on the experiential aspect, the relevant research and theory are still considered. The author presents descriptions of play and the history of play therapy, child and therapist characteristics, play room set-up and materials, working with parents. Guidelines, transcripts, and case examples are provided for governing sensitive issues at every stage of the therapeutic process, from the first meeting to the end of the relationship.
