syllabus for the new RCVS equine veterinary nursing certificate. It covers subjects such as medical and surgical equine nursing, basic equine management and the theory underpinning these topics. It also includes chapters on nutrition, imaging and anatomy and physiology not previously well covered for the equine at a level appropriate for nurses. The approach is practical and the book is laid out in a user-friendly manner with copious illustrations.

The aim of this reference work is to provide the researcher with a comprehensive

compilation of all up to now crystallographically identified inorganic substances in only one volume. All data have been processed and critically evaluated by the "Pauling File" editorial team using a unique software package. Each substance is represented in a single row containing information adapted to the number of chemical elements.

Set includes revised editions of some issues.
